

Investigation Process

Beginning

Report Submitted

Initial report submitted to the Dean of Students in the Office of the Vice President for Student Affairs (OVPSA) for review and recommendation for investigation.

Investigation Initiated

At least two investigators are appointed by the Dean of Students. Investigators serve as fact gatherers.

Students Notified of Investigation

Students are notified via their Texas A&M University e-mail and/or phone. Students are required to meet with investigators in accordance with the University Student Rules (24.4.23. Abuse of process).

Support Documentation

Students may submit an additional written statement and/or other supporting documentation (text messages, e-mails, social media posts, etc.) related to the report for use in the investigative process by a designated deadline.

Interviews

Investigators review the investigation process with students including their options for participation in the investigation. Students have the opportunity to answer a series of questions and review/sign-off on notes taken by the investigators. Information provided to the investigators could result in the issuance of charges of violations of University Student Rules.

Investigation Report

At the conclusion of the investigation, an Investigation Report is submitted to the Student Conduct Office (SCO). SCO determines if there is sufficient information to charge a student with an alleged violation. Organizations could be charged as well.

Support

Student Assistance Services (SAS) is available for support, questions, and resources for all parties involved during and after the investigation process. University and community resource information is provided to students.
